

Mean CAR(0,1) by SCRisk quintile

US hardware: 12,744 calls, 379 firms. Winsorization: hardware sample 1st/99th percentiles.

Fractional ties within SIC divisions; nested Resolution sorts. Current-company screen; descriptive estimates.

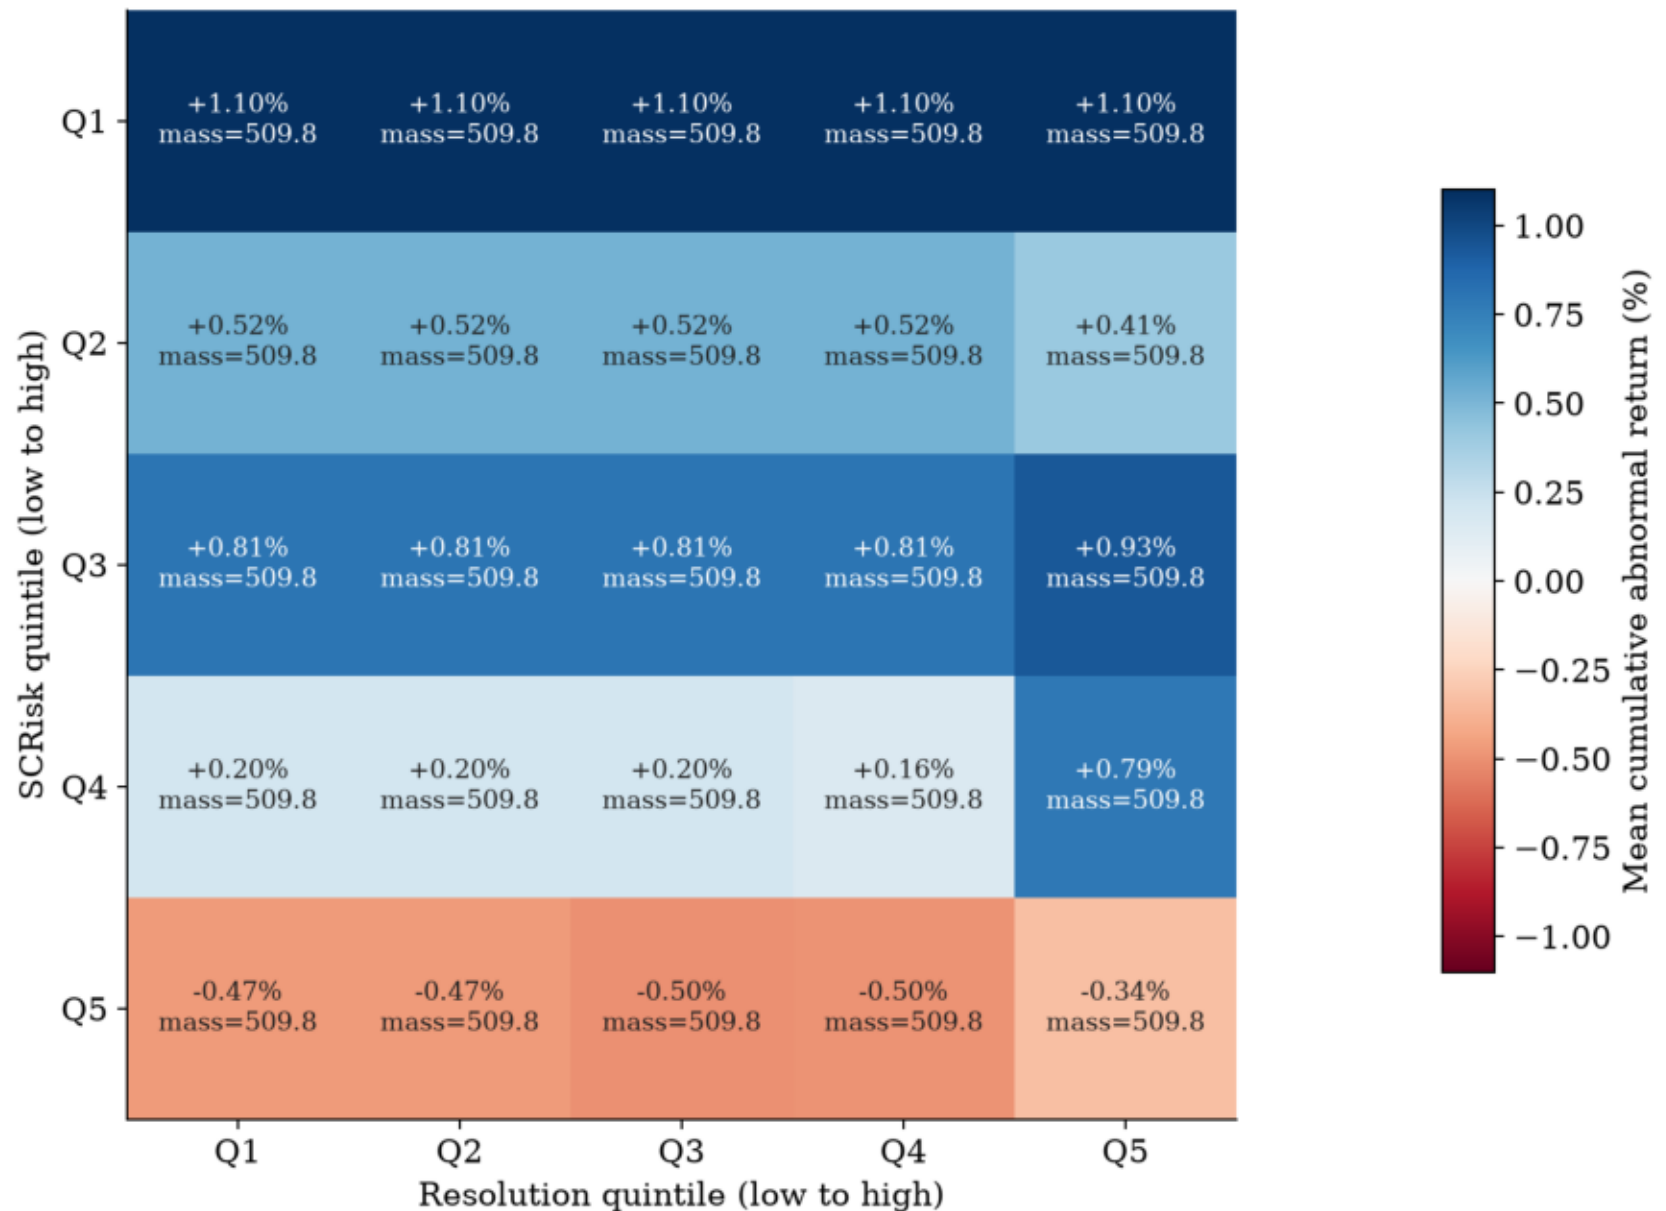

Mean CAR(0,1) by Resolution quintile

US hardware: 12,744 calls, 379 firms. Winsorization: hardware sample 1st/99th percentiles.

Fractional ties within SIC divisions; nested Resolution sorts. Current-company screen; descriptive estimates.

Mean CAR(0,1): SCRisk x Resolution

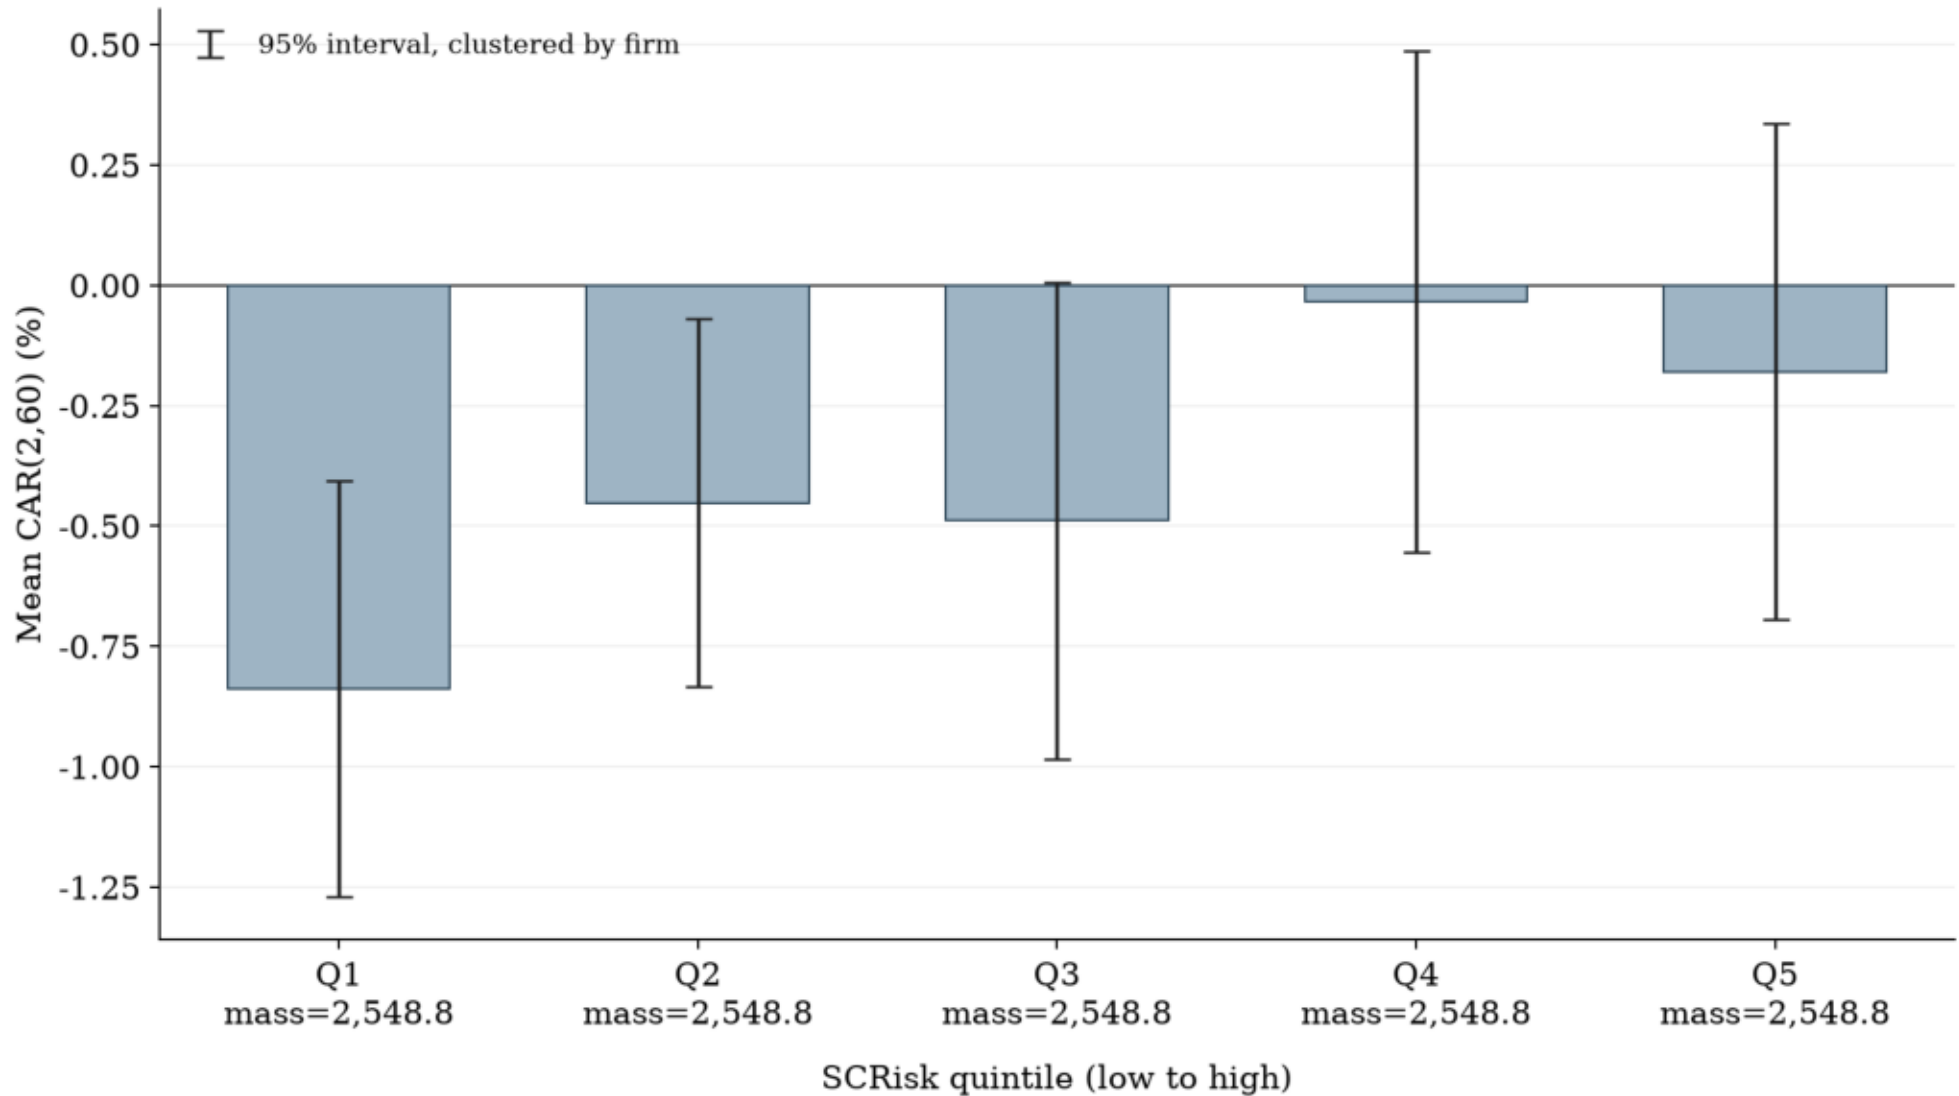

US hardware: 12,744 calls, 379 firms. Winsorization: hardware sample 1st/99th percentiles.

Fractional ties within SIC divisions; nested Resolution sorts. Current-company screen; descriptive estimates.

Cell intervals omitted for readability; bar panels show firm-clustered 95% intervals.

Mean CAR(2,60) by SCRisk quintile

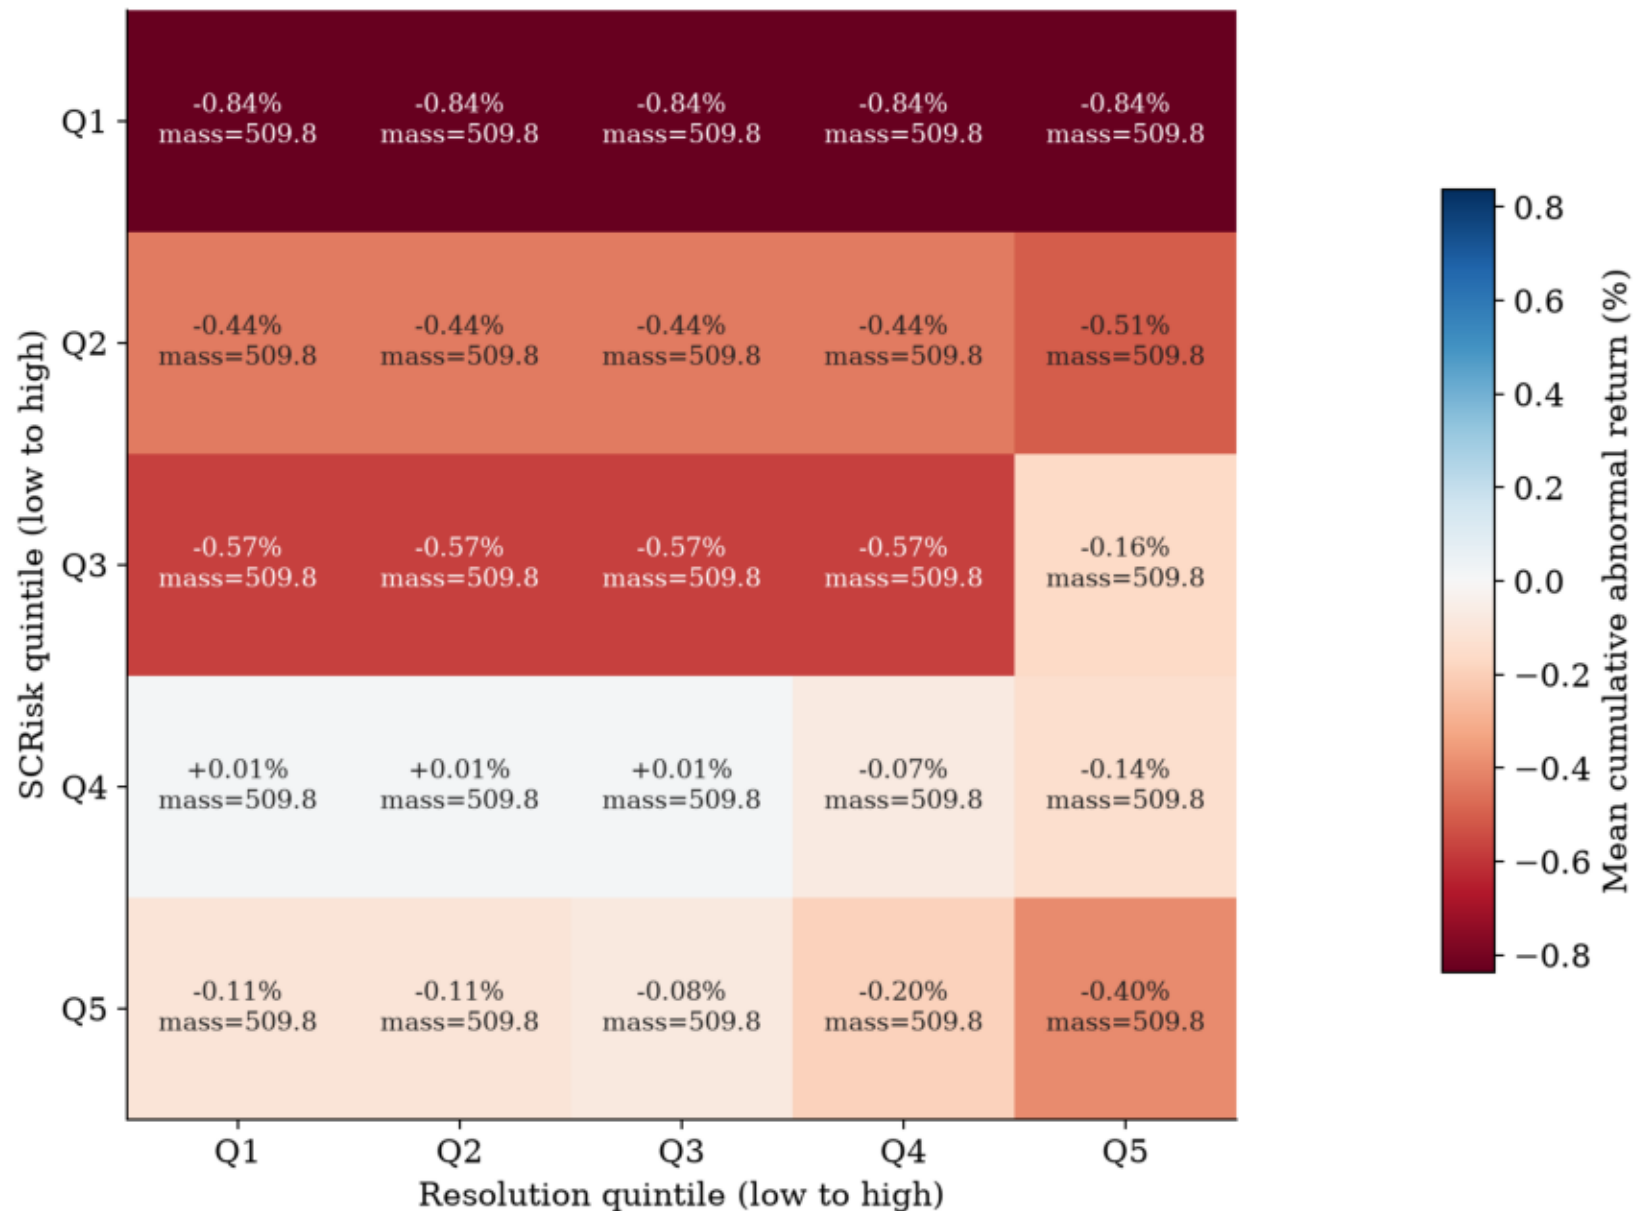

US hardware: 12,744 calls, 379 firms. Winsorization: hardware sample 1st/99th percentiles.

Fractional ties within SIC divisions; nested Resolution sorts. Current-company screen; descriptive estimates.

US hardware portfolio | fiscal 2010-2019 | earnings-release events

Mean CAR(2,60): SCRisk x Resolution

US hardware: 12,744 calls, 379 firms. Winsorization: hardware sample 1st/99th percentiles.

Fractional ties within SIC divisions; nested Resolution sorts. Current-company screen; descriptive estimates.
